

QUALITY MANAGER-SENIOR

The company is looking for a Senior Quality Manager.

The candidate will be responsible for the following activities:

- Manage compliance documents;
- Control the in and out of all the components;
- Manage quality control and ISO 9001 Certification documents;
- Assist the project manager on the quality control;
- Assist with the final evaluation of the providers through KPIs

Requirements:

- The candidate is required to have **proven experience** to operate as a quality manager in a small-medium-sized company, between 60-80 employees;
- The field is specifically the automotive-motorsport one, and the right candidate should be **highly motivated** and ready to operate in a very dynamic environment;
- Ability to think outside the box.
