

TECHNICAL-BUYER

The company is looking for a Technical Buyer. The ideal candidate is an extremely motivated and dynamic figure with the right skills to create a purchasing office from scratch.

The candidate will be responsible for the following activities:

- Interfacing with project managers for purchases related to their individual projects;
- Searching for new suppliers in Italy and abroad;
- Stipulation of medium-term supply contracts;
- Partnership relationships with the most qualified selected suppliers;
- Structuring and monitoring expense control on the existing management system (ERP) with relative order entries.

Requirements:

- Experience of at least two to three years in a structured company is required;
- Motorsport or Automotive experience preferred but not necessary;
- Same thing for the knowledge in the field of composite materials.
